

As a smart OTT company,  
we want to offer customized OTT plans for our customers  
so that the customers should be able to choose to build their plan by choosing different stream platforms  
and how many viewing hours they want for each of them.

We do support below steaming services and below is their tariff plan.

Streaming Service	Price per unit Unit in hours
Netflix	Rs. 10 10 hrs
Amazon Prime	Rs. 2 5 hrs
Hotstar	Rs. 1 5 hrs

Based on the user's choice, the system should show the total amount which should be paid by the customer.

#### Sample Input 1

Viewing hours for Netflix: 20  
Viewing hours for Amazon Prime: 10  
Viewing hours for Hotstar: 50

#### Sample Output

Total amount should be paid: Rs.34 (Calculation Reference:  $10 * 2 + 2 * 2 + 1 * 10$ )

#### Sample Input 2

Viewing hours for Netflix: 10  
Viewing hours for Amazon Prime: 0  
Viewing hours for Hotstar: 100

#### Sample Output

Total amount should be paid: Rs.30 (Calculation Reference:  $10 * 1 + 2 * 0 + 1 * 20$ )

#### Sample Input 3

Viewing hours for Netflix: 10  
Viewing hours for Amazon Prime: 2

#### Sample Output

Amazon Prime allows viewing hours in multiples of 5 only
